Methylcobalamin, Gamma Linolenic Acid, Alpha Lipoic Acid, Folic Acid,
Pyridoxine Hydrochloride, Biotin, Chromium & Zinc Capsules

Galaxy's
NEUROCARETM

14449R3

COMPOSITION :

Each soft gelatin capsule contains:

Methylcobalamin	1500 mcg
Gamma Linolenic Acid (From Borage oil B.P.)	60 mg
Alpha Lipoic Acid (ALA) U.S.P.	100 mg
Folic Acid B.P.	1.5 mg
Pyridoxine Hydrochloride B.P.	3 mg
Biotin U.S.P.	3 mg
Elemental Chromium (as Chromium Picolinate U.S.P.)	100 mcg
Elemental Zinc (as Zinc Sulphate U.S.P.)	10 mg
Excipients	q.s.

Galaxy's NEUROCARE is a scientifically designed comprehensive nutrient formula includes Methylcobalamin, Gamma Linolenic Acid, Alpha Lipoic Acid, Folic Acid, Pyridoxine Hydrochloride, Biotin, Chromium & Zinc Capsules.

Methylcobalamin is one of the coenzyme forms of Vitamin B12, which is water-soluble vitamin in the body. Its deficiency leads to damage the nervous system. This causes a wide range of neurological disorders.

Methylcobalamin is required for the conversion of homocysteine to methionine and its derivative S-adenosyl methionine.

Methylcobalamin, folic acid and vitamin B6 helps to decrease the homocysteine level and improves the neurologic symptoms.

Alpha lipoic acid acts as a potent antioxidant agent. Diabetic neuropathy may be caused by free radicals via damaging the nerves. As an antioxidant, alpha-lipoic acid helps to block such damages.

In addition, because of its effect on glucose metabolism, lipoic acid helps to maintain the glucose level by increasing insulin sensitivity.

Gamma linolenic acid (GLA) is an important essential fatty acid (EFA). GLA is useful in diabetic complications.

Chromium & Biotin improves glucose metabolism.

Back

Zinc is an essential element for certain enzymes which are involved in metabolic pathways.

INDICATIONS :

- Peripheral Neuropathy
- Diabetic Neuropathy
- Drug induced Neuropathy
- Diabetic complications

DOSAGE :

As directed by the Physician.

SIDE EFFECTS :

Ingredients presents in Galaxy's Neurocare are generally well tolerated but mild side-effects like nausea, headache etc will be observed.

CONTRAINDICATION :

Galaxy's Neurocare is contraindicated in patients with hypersensitivity to any of the ingredients used in this formulation.

DRUG INTERACTIONS :

Absorption of methylcobalamin from the gastro-intestinal tract may be reduced by neomycin, aminosalicilic acid, histamine H2-receptor antagonists and colchicine.

The blood glucose should be monitored and anti-diabetic drug dose should be adjusted after alpha lipoic acid administration in diabetes patients and those having glucose intolerance.

STORAGE :

Store below 30°C in dry place, protect from direct sunlight.

Keep medicines out of reach of children.

PRESENTATION :

Each carton contains 3 strips of 10 capsules each.

Made in India by:

SOFTGEL HEALTHCARE PVT. LTD.

Survey No. 20/1, Vandalur - Kelambakkam Road, Pudupakkam Village,
Kancheepuram District, Tamilnadu - 603 103.

Manufactured for:

Galaxy Pharmaceuticals,
B.No :36 , Gala No. 2,3,4A Bhiwandi
Thane (Mumbai) M.S. India.

SPP1084/02

Specification:

Size - 70 x 100 mm (L x B)

Paper - 60 gsm pure white maplitho

Printing - 1 colour offset printing on f

Folding - 2 folds
