Methylcobalamin, Pregabalin, Folic Acid,
Pyridoxine Hydrochloride & Alpha Lipoic Acid Capsules

Galaxy's

NeuroCARETM Plus

14610R1

COMPOSITION :

Each soft gelatin capsule contains:

Methylcobalamin	750 mcg
Pregabalin	75 mg
Folic Acid B.P.	1.5 mg
Pyridoxine Hydrochloride B.P. (Vitamin B6)	3 mg
Alpha Lipoic Acid (ALA) U.S.P.	100 mg
Excipients	q.s.

Galaxy's NEUROCARE Plus is scientifically designed comprehensive nutrient formula includes Methylcobalamin, Pregabalin, Folic Acid , Vitamin B6 and Alpha lipoic acid.

Methylcobalamin is one of the coenzyme form of Vitamin B12, which is water-soluble vitamin in the body. Its deficiency leads to damage the nervous system. This causes a wide range of neurological disorders.

Methylcobalamin is required for the conversion of homocysteine to methionine and its derivative S-adenosyl methionine.

Pregabalin ((S)-3-(aminomethyl)-5-methylhexanoic acid) is a structural derivative of the inhibitory neurotransmitter γ -aminobutyric acid (GABA).

It has anticonvulsant, analgesic and anxiolytic activity.

Pregabalin is used in the management of neuropathic pain, peripheral neuropathy, fibromyalgia and used as an adjuvant therapy for adult patients with partial onset seizures.

Methylcobalamin, folic acid and **Vitamin B6** help to decrease the homocysteine levels and improve the neuropathic symptoms.

Alpha lipoic acid acts as a potent antioxidant and improves symptoms of neuropathy.

Galaxy's NEUROCARE Plus is beneficial to improve symptoms of neuropathy, reduces diabetes complications, fibromyalgia and may acts as an adjuvant therapy for adult patients with partial onset seizures.

INDICATIONS :

- Peripheral Neuropathy
- Diabetic Neuropathy
- Drug induced Neuropathy
- Fibromyalgia
- Adjunctive therapy for adult patients with partial onset seizures

DOSAGE : As directed by the Physician.

SIDE EFFECTS :

Side-effects reported are: nausea, headache, dizziness, somnolence, dry mouth, edema etc

CONTRAINDICATION :

Galaxy's NEUROCARE Plus is contraindicated if the user is known to be hypersensitive to any of the substances used in the formulation.

DRUG INTERACTIONS :

Absorption of methylcobalamin from the gastro-intestinal tract may be reduced by neomycin, aminosalicic acid, histamine H2-receptor antagonists and colchicine.

Concurrent use of pregabalin with oxycodone, lorazepam & ethanol may increase the central nervous system effects e.g. depression.

STORAGE :

Store below 30°C, protect from direct sunlight.

Keep medicines out of reach of children.

PRESENTATION :

Each carton contains 3 strips of 10 capsules each.

Made in India by: SOFTGEL HEALTHCARE PVT. LTD.
Survey No. 20/1, Vandalur - Kelambakkam Road, Pudupakkam Village,
Kancheepuram District, Tamilnadu - 603 103.

Manufactured for:

Galaxy Pharmaceuticals,
B.No :36 , Gala No. 2,3,4A Bhiwandi
Thane (Mumbai) M.S. India.

SPPI085/03

Pantone 3015

Specification:

Size - 70 x 100 mm (L x B)

Paper - 60 gsm pure white maplitho paper

Printing - 1 colour offset printing on front & back side.

Folding - 2 folds
