Patient Information Leaflet

Cloxvid-500 (Cloxacillin Sodium Capsules USP 500mg)

Read all of this leaflet carefully before you start using this medicine:

- Keep this leaflet. You may need to read it again.
- If you have any further questions, ask your doctor or pharmacist.
- This medicine has been prescribed for you. Do not pass it on to others. It may harm them, even if their symptoms are the same as yours.
- If any of the side effects gets serious, or if you notice any side effects not listed in this leaflet, please tell your doctor or pharmacist.

In this leaflet:

- a) What Cloxvid-500 is and what it is used for
- b) Before you take Cloxvid-500
- c) How to take Cloxvid-500
- d) Possible side effects
- e) How to store Cloxvid-500
- f) Further information

a) WHAT CLOXVID-500 IS AND WHAT IT IS USED FOR

Cloxvid-500 contains a medicine called Cloxacillin Sodium. Cloxvid-500 is used to treat infections that are caused by certain bacteria. Antibacterial drugs like Cloxvid-500 treat only bacterial infections. They do not treat viral infections.

Cloxvid-500 is an antibiotic that works by:

- Stopping the growth of bacteria.
- Killing bacteria.

b) BEFORE YOU TAKE CLOXVID-500

Do not take Cloxvid-500 if:

- You have had an allergic reaction to Cloxvid-500 or other medicines such as cephalosporins or penicillins.

To help avoid side effects and ensure proper use, talk to your healthcare professional before you take Cloxvid-500. Talk about any health conditions or problems you may have, including if you:

- Have severe kidney disease with or without significant liver disease
- Are pregnant or could become pregnant during treatment
- Are breast feeding

Other medicines and Cloxvid-500:

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy.

c) HOW TO TAKE CLOXVID-500

- Take Cloxvid-500 1-2 hours before eating.
- Although you may feel better early in treatment, Cloxvid-500 should be used exactly as directed.
- Misuse or overuse of Cloxvid-500 could lead to the growth of bacteria that will not be killed by Cloxvid-500 (resistance). This means that Cloxvid-500 may not work for you in the future.

Do not share your medicine.

Size: 100x200mm

Usual Dose:

Adults: 250 mg to 500 mg every 6 hours. Do not take more than 6000 mg daily.

Children weighing less than 5 kg (11 lbs): 250 mg per day.

Children weighing more than 5 kg (11 lbs): 50 mg / kg / day.

Overdose: If you think you have taken too much Cloxvid-500, contact your healthcare professional, hospital emergency department or regional poison control centre immediately, even if there are no symptoms.

d) POSSIBLE SIDE EFFECTS

These are not all the possible side effects you may feel when taking Cloxvid-500. If you experience any side effects not listed here, contact your healthcare professional.

- Upper stomach pain
- Flatulence

Other side effects may occur that usually do not need medical attention. These side effects may go away during treatment as your body adjusts to the medicine. However, check with your doctor for any side effect that seems unusual or that is especially bothersome.

Serious side effects and what to do about them:

Rare:

- an allergic reaction (difficulty in breathing, closing of the throat, swelling of the lips, face or tongue; hives or a rash)
- redness, or itching
- severe nausea, vomiting, or diarrhea

This is not a complete list of side effects. For any unexpected effects while taking Cloxvid-500, contact your doctor or pharmacist.

e) HOW TO STORE CLOXVID-500

Store in a dry & dark place below 30°C, protected from moisture.
