LEAFLET:

DT - ZINC TABLETS

(Zinc Sulphate Dispersible Tablets 10 mg)

Composition:

Each dispersible tablet contains: Zinc Sulphate monohydrate BP Equivalent to elemental Zinc Excipients

10 mg q.s.

Zinc Sulphate monohydrate is a source of Zinc which is an essential trace element and involved in a number of body enzyme systems. Symptoms of less severe zinc deficiency include distorted or absent perceptions of taste and smell and poor wound healing. Severe zinc deficiency causes skin lesion, alopecia, diarrhoea, increased susceptibility to infections and failure to thrive in children.

Indication

DT- ZINC Tablets is indicated for the treatment of diarrhoea, especially for the children from 2 months to 5 years of age in connection with Oral Rehydration Salts (ORS).

DT- ZINC is also indicated for the treatment of other Zinc deficiency (Loss of appetite, Severe growth retardation, Deformed bone formation,Impaired immunological response, Recurrent respiratory tract infections, Acrodermatitis enteropathica, Parakeratatic skin lesions, Defective and delayed wound healing, Anaemia, Night blindness, Mental disturbances).

Dosage: For infants between 2 and 6 months of age :

1 tablet daily for 10 days .

For Children between 6 months and 5 years of age :

2 tablets daily for 10 days.

Or as directed by the physician.

Contraindication:

It is contraindicated in patients with hypersensitivity to Zinc.

Precaution & Warning:

Concurrent administration of Zinc salt with penicillamine might diminish the effect of Penicillamine. The absorption of Zinc, although poor, may be decreased by various compounds including some foods. Chelation may occur with tetracyclines.

Drug Intéraction:

Zinc may inhibit the absorption of concurrently administered tetracyclines, when both are being given an interval of at least 3 hours should be allowed.

Overdose:

Zinc sulphate is corrosive in over dose. Symptoms are corrosion and inflammation of the mucous membrane of the mouth and stomach; ulceration of the stomach followed by perforation may occur. Gastric lavage and emesis should be avoided. Demulcents such as milk should be given. Chelating agents such as sodium edetate may be useful.

Storage:

Store below 25°C, away from light & moisture.

Keep this medicines out of reach of children .

Shelf life: 36 months

Presentation: Blister pack of 10 X 10 Tablets.
