

Magnesium Lactate Dihydrate BP	2% w/w
Zinc Oxide BP	2% w/w
Cream base containing <i>Garcinia indica</i>	q.s.

Cracked Heels :

Cracked heels are a common foot problem. Cracked heels are commonly caused by dry skin (xerosis), and made more complicated if the skin around the rim of the heel is thick (callus). For most people this is a nuisance and a cosmetic problem but when the cracks are deep, they are painful to stand on and the skin can bleed. Some medical conditions predispose to a drying skin (e.g. diabetes neuropathy, psoriasis and eczema).

Galaxy's Heel Cream is a special formula for cracked heels enriched with Vitamins and Aloe Vera extract.

Urea - has hydrating and keratolytic properties and also penetrates into the skin. Urea acts as an important moisturizer in improving the dry skin (xerosis) of the feet in diabetic patients. Further, it is acting in synergy with other ingredients like vitamin A by enhancing latter's penetration through thick skin layers.

Aloe Vera extract hydrates and gives moisturizing effect to the damaged skin. It improves skin integrity, decreases appearance of fine wrinkling, and useful in the management of dry skin and irritant contact dermatitis. Moreover, it has got remarkable healing properties.

Zinc oxide - helps to rejuvenate and soothes the peri-ulcer skin. It reduces chances of infections via enhanced local defense systems. It also stimulates epithelialization of wounds.

Magnesium - improves skin barrier function, enhances skin hydration and reduces skin roughness and inflammation in atopic dry skin.

Direction for use:

Apply to rough, dry, cracked and thickened heels. Apply twice daily, morning and night. For best results after application at night, cover affected areas with cotton socks.

Contraindication:

Do not apply to open, oozing and severe cracks or ulcers.

Precaution :

Discontinue use if local irritation or rash occurs during use.

FOR EXTERNAL USE ONLY.

Avoid contact with eyes.

Keep out of reach of children.

Do not store at temperatures exceeding 30°C

Presentation:

Pack of 30 g tube in a carton.

Manufactured in India by :

Curetech Skincare

Plot No. 33 & 34, Phase-IV, Bhatoli Kalan,

Baddi, Distt. Solan (HP)-173205
