

OSTEOMIN

Composition :

Each film coated tablet contains :

Glucosamine Sulphate 2KCl	667 mg
Equiv. to Glucosamine Sulphate	500 mg
Chondroitin Sulphate	400 mg

Indications :

Provide relief to sufferers of arthritis by reducing joint inflammation and relieving associated pain. It may help increase joint mobility by restoring cartilage tissue.

Dosage :

One tablet three times per day with meals.

Side Effects :

Adverse effects of glucosamine are minimal. There are reports of gastrointestinal symptoms, drowsiness, headache, and some skin rashes.

Precautions :

If you are pregnant or breast feeding, consult with your health care professional before using this product.

Contraindications :

Individuals with known hypersensitivity to any ingredients.

Storage :

Store below 25°C in a dry place, away from direct sunlight.

Packaging :

Ten tablets packed in a blister and 3 such blisters packed in an outer carton.

Note :

Read the instructions carefully before use.

Do not use this product after the expiry date.

Do not use this product if there are any significant changes in appearance of the tablets.

Keep out of reach of children.
