Figure 1: Schematic representation of the experimental design. The figure shows a timeline of the experiment. At the top, a bar chart shows the number of subjects (n) for each condition: PHARMAS CODE (n=10) and PHARMAS CODE + PHARMAS CODE (n=10). Below this, a flowchart shows the sequence of events: 1. PHARMAS CODE (n=10) - 2. PHARMAS CODE + PHARMAS CODE (n=10) - 3. PHARMAS CODE (n=10) - 4. PHARMAS CODE + PHARMAS CODE (n=10). The flowchart also indicates the number of subjects (n) for each condition at each step. The legend indicates that PHARMAS CODE is represented by a black bar and PHARMAS CODE + PHARMAS CODE is represented by a grey bar.
